

Citaat van Kettering**Andries de Man****Charles Kettering zei ooit:**

“When I was research head of General Motors and wanted a problem solved, I'd place a table outside the meeting room with a sign: *Leave slide rules here*”.

“If I didn't do that, I'd find someone reaching for his slide rule. Then he'd be on his feet saying: “Boss, you can't do it.”

Dit zouden we nu met smartphones moeten doen.
